SUPPLEMENTARY INFORMATION: We are soliciting public comments to permit the Department to:

- Evaluate whether the proposed information collection is necessary to properly perform our functions.
- Evaluate the accuracy of our estimate of the burden of the proposed collection, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the reporting burden on those who are to respond.

Abstract of proposed collection: The Department's student internship programs provide a key source of potential candidates who have an interest in, and are qualified, to become future Department employees. Naturally, HR/REE wants to strengthen and maintain its connections to this group, fostering and mentoring a pool of candidates from which to obtain successful recruits.

In June 2008, HR/REE surveyed over 3,500 former interns who served from 2005 through spring 2008. The intern alumni were queried as to their motivation in seeking an internship,

whether or not they had pursued a career with either the Foreign Service or Civil Service, and what their recommendations would be for the best ways for the Department to maintain contact after the conclusion of their internships. Intern alumni endorse continued contact with Department representatives mainly through electronic means and website reminders of career opportunities.

In an effort to address these findings and provide viable solutions to improving student engagement prior to, during and following an internship, the Department developed an intern engagement strategy that will ultimately result in a measurable conversion of interns into Department hires for the Foreign or Civil Service. The foundation of this strategy is INTERNATIONAL CONNECTIONS, a web-based career networking site for current, former and future interns that collects pertinent information about them, their experiences and their career goals.

Methodology: Currently, the Department of State internship program employs over 1,000 participants in the summer, in addition to fall and spring internships. Unfortunately, a tracking system does not exist which would enable the Department to capture the intern-to-hire ratio or conversion rate, or track this statistic over a period of time. This project would provide that missing link.

Users will register online at careers.state.gov/internconnect and create a profile that includes the aforementioned information.

Dated: October 21, 2009.

Ruben Torres,

Executive Director, Bureau of Human Resources, Department of State.
