

## INDUSTRY USER ANNOUNCEMENT – DECEMBER 27, 2013

All DDTC external systems (i.e., DTrade, TRS, EFS, Mary, and Ellie) and DTAS Online will be unavailable to industry users beginning 5:00 pm (EST) January 3, 2014 until 6:00 am January 6, 2014 due to system upgrades in support of Federal Register Notice [78 FR 40922](#).

All DTrade DSP forms, DS2032, and the Common Schema will be upgraded to accommodate the additions and revisions to USML Categories VI, VII, XIII, and XX. Attempts to access DDTC external systems during this maintenance window will result in the user receiving an error message.

Beginning January 6, 2014, the newly revised forms and schema must be utilized. Earlier versions of the forms and schema will automatically be rejected by the system. As customary with DDTC forms/schema deployments, DDTC has posted the [future forms and schema](#) in advance of the effective date.

In addition to posting a notice on our website, DDTC will send an email update to current DTrade super users notifying them when DTrade is back online and operational. If an existing super user would like to opt out of receiving electronic updates, send an email to [listserv@lmlist.state.gov](mailto:listserv@lmlist.state.gov) and type "SIGNOFF DDTC-INDUSTRY-COMMUNICATIONS" in the body of the email (without quotes). No subject line is necessary.

If you have any questions related to this announcement, please contact the DDTC Help Desk at 202-663-2838 or [dtradehelpdesk@state.gov](mailto:dtradehelpdesk@state.gov). (12.27.13)
