This document provides specific information for the release of the Country Code Project. It includes modifications to two external systems: DT2e and DTAS Online as well as several forms

### Overview of Country Code Updates

This document describes Country Code Project related updates to the two systems and eight forms,

#### Systems –

DT2e  
DTAS Online

#### Forms –

DS-2032  
DSP-5  
DSP-6  
DSP-61  
DSP-62  
DSP-73  
DSP-74  
DSP-85  
Batch (Common schema)

List changes include: (a) addition of four countries, (b) modification of twenty-four country names; and, (c) and seventeen countries are now considered expired. The business goal is to assure that new actions can be taken or requested only on existing countries under the updated names, while leaving existing data referencing expired countries intact.

To support this goal:

- In all forms where users can select a country, the lists are changed to add new countries, remove expired countries, and update the names of countries whose names are changed.

Please check with DDTC Helpdesk, [dtradehelpdesk@state.gov](mailto:dtradehelpdesk@state.gov) for questions about the details on changed countries.

### PureEdge Forms (DSP-5, -6, -61, -62, -73, & -74)
