Dear Mr. Speaker:

Pursuant to Section 36(d) of the Arms Export Control Act, I am transmitting herewith certification of a proposed manufacturing license agreement with Canada.

The transaction described in the attached certification involves the transfer of technical data and assistance in the manufacture of 232 Night Observation Device, Long Range Mid-life Improvement Program (NODLR-MIP) modification kits. The NODLR-MIP modification kits will be for end use in Canada.

The United States Government is prepared to license the export of these items having taken into account political, military, economic, human rights and arms control considerations.

More detailed information is contained in the formal certification which, though unclassified, contains business information submitted to the Department of State by the applicant, publication of which could cause competitive harm to the United States firm concerned.

Sincerely,

A handwritten signature in black ink, appearing to read "Paul V. Kelly".
